

# Distance Learning Resources

Welcome to the 2020-2021 school year and our Distance Learning Program. We are excited to help guide your student to success. Each student that chose the Distance Learning option has been placed with a qualified teacher to serve as your Distance Learning Facilitator. Our Learning Management System, SchoolsPLP (SPLP), is an award winning platform with rigorous content and curriculum.

## Attendance Requirements:

Students are required to complete 240 minutes of logged activity per day. Our Learning Management System keeps track of every minute. Even when a student completes an offline activity, as long as they remain logged on to SPLP, their minutes will be accounted for. Student minutes will be checked daily and attendance will be updated weekly. If a student fails to meet the 240 minute requirement on any given day, they will be marked absent for that day.

## Daily Zoom Meetings:

There will be daily Live Zoom meetings for students to attend. Please see the schedule above. Attendance at the Zoom is not mandatory, but highly recommended. The Zoom meetings will count towards the 240 minute attendance requirement.

## Support:

If your student needs help with their courses, please email their teacher and/or facilitator directly.
